

TEACHING MADE EASY.

PowerPoint provides teachers and educators multiple toolkits to create professional, consistent and engaging presentations.

WE ARE THE MOST COMMONLY USED PRESENTATION SOFTWARE

Teachers use PowerPoint everyday

6+ Million

On average to prepare a presentation

2 Hours

Of presentation software is owned by Microsoft

95%

what we offer ...

Portable

Presentations can be re-used and easily updated.

It allows teachers and students to access and share your presentation from anywhere

MEDIA

Supports all types of media files onto the presentation.
As well as that it provides the option to animate slides/ media and create charts or graphs.

BUILT-IN THEMES

Pre-made templates are provided making the design process easier and less time consuming.
Personalised themes can also be shared and uploaded online for others.

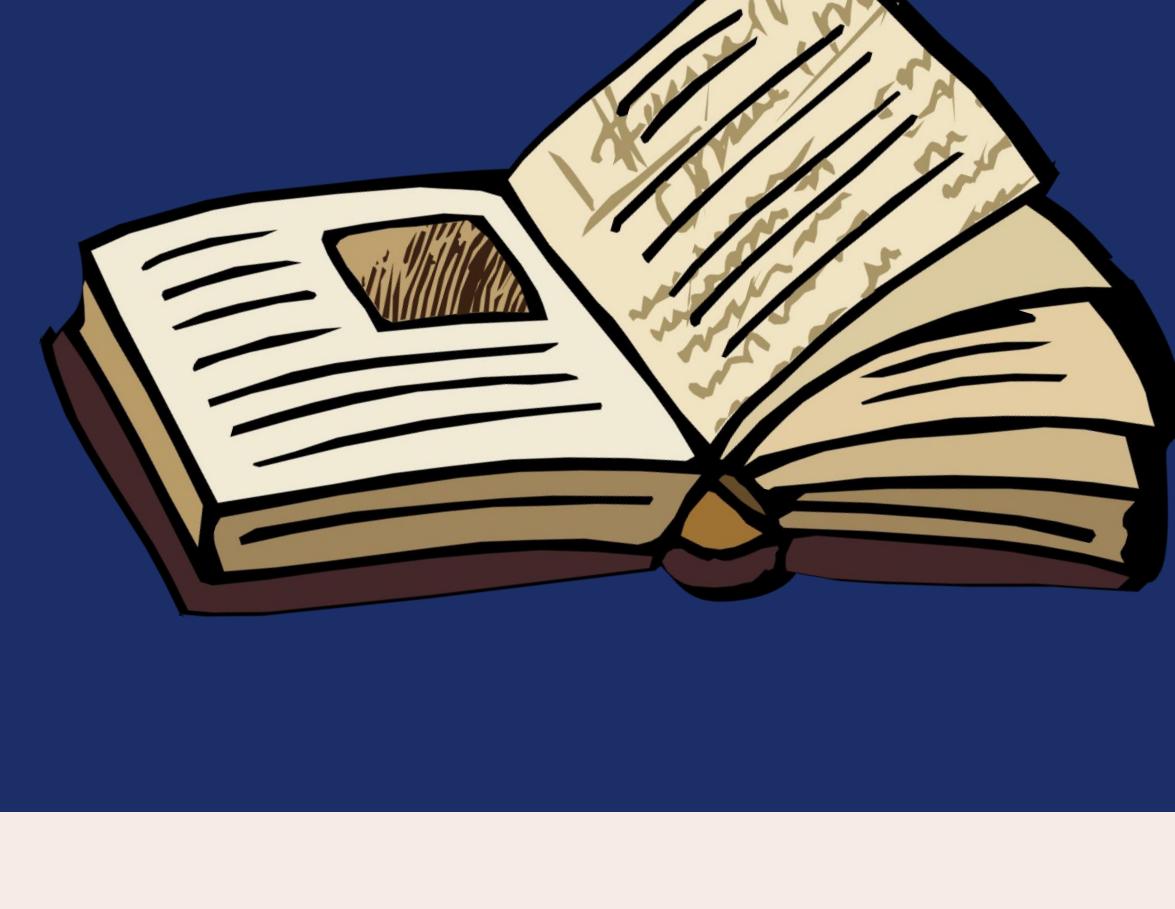

PowerPoint is easy, engaging and effective.

It is a powerful software tool used to deliver presentations at a professional level, a surplus of teachers and educational centres have come out in support of using PowerPoint for their lesson plan.

Students have an average attention span of 10 minutes by incorporating different visual options such as charts/graphs to represent data and creating fun activities such as quizzes keeps students engaged and provide them with a better learning experience. (simple slide)

EXPERT TIPS ON CREATING AN INTERACTIVE PRESENTATION

PRESENTATION

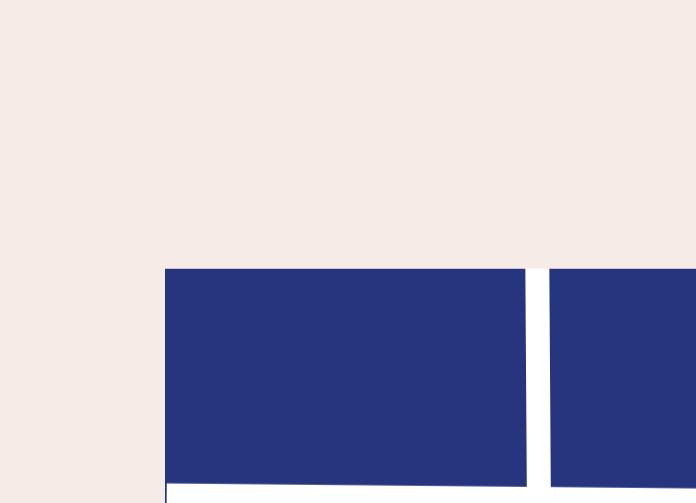

2 Types of interactive PowerPoint Presentations

Interaction with Slide Content

- Animations
- Hyperlinks
- Transitions

Interaction with Audience

- Interactive Quizzes
- Polls
- Games

ADD-ONS

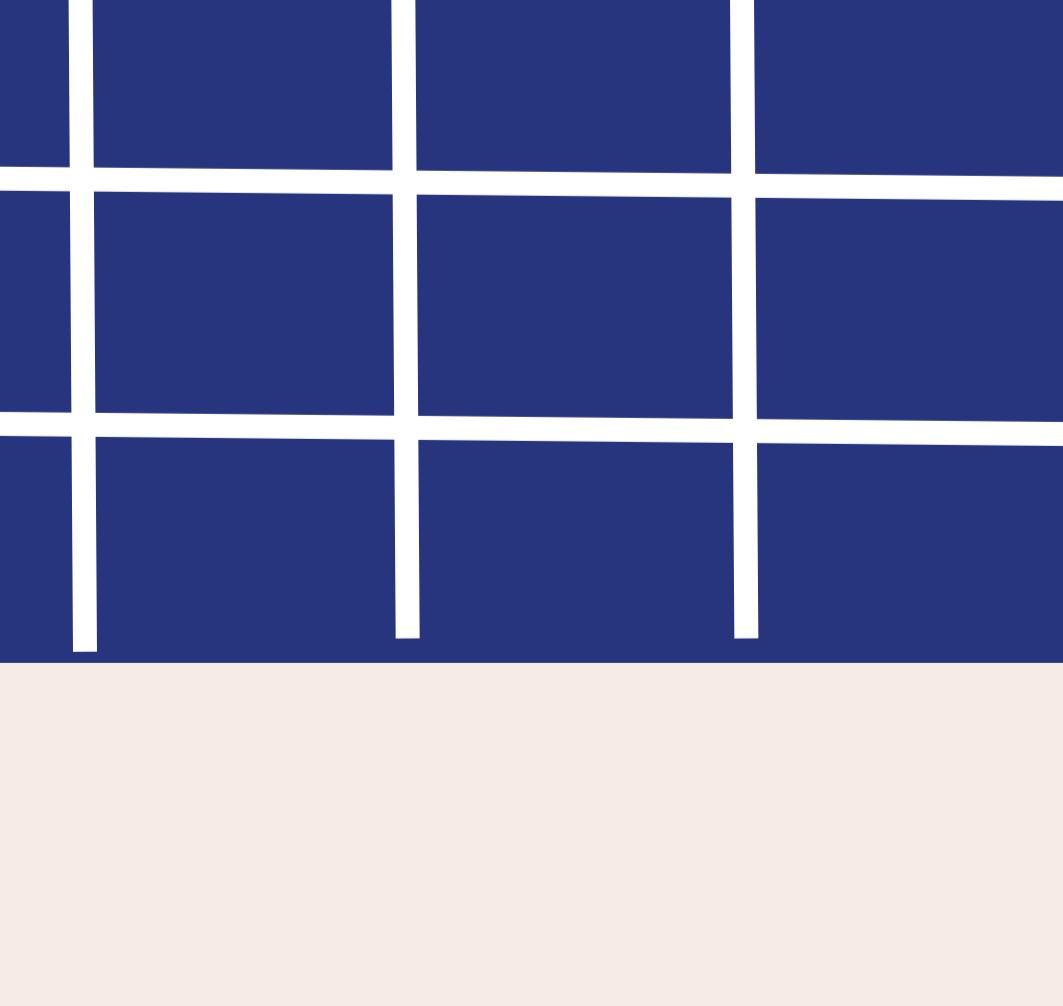

Traditionally it has been incredibly difficult and complex to make a PowerPoint interactive.

Classpoint is a PowerPoint add-on provides a diverse range of interactive quizzes such as multiple choice, short answer and word cloud questions.

There is an automatic grading feature that can be used through the multiple choice questions, this feature automates the grading process, includes an option to select difficulty levels, provide star ratings and export the quiz report.

This is the perfect tool for teacher to use for mid-term to get a grasp on the students knowledge and what topics need to be refreshed.
